Edinburgh, Scotland

Edinburgh Napier University, (B.Sc.)

Business Engineering, semester abroad

DAAD-Promos grant

WORK EXPERIENCE

01/2026 – today

Munich, Germany

SyncMode.io (GenAI Sandbox), Founder

Architecting agentic workflows and real-world LLM solutions using frontier models (RAG, orchestration). Bridging practical software engineering with Google Cloud architecture to build scalable, production-ready AI applications.

03/2023 – today

Munich, Germany

BMW Group, Team Lead

Transitioned complex R&D prototypes into certified global mass production (7 Series, iX). Translated shop-floor user journeys into technical specs to drive strategic automation execution incl. vehicle homologation.

09/2018 – 03/2023

Munich, Germany

BMW Group, Project Lead

Directed global software deployments across 8 markets, delivering 35% faster integration cycles. Aligned technology roadmaps with shop-floor realities to drive user-centric adoption and measurable operational ROI.

10/2017 – 06/2018

Munich, Germany

BMW Group, Master's Thesis

Developed scalable Product Lifecycle Management (PLM) concepts focusing on system integration and data governance. Delivered a strategic roadmap (Grade: 1.0) for IT landscape harmonization, directly influencing automotive production data strategies.

IT SKILLS

MS Word

MS Excel

French

Have a look at my profile and get
in touch with me

09/2017 – 03/2018

Munich, Germany

Simon-Kucher & Partners, Working Student

Analyzed U.S. logistics market performance. Created data-driven competitive reports and strategic recommendations for C-level decision-making, providing deep insights into the logistics start-up landscape.

04/2017 – 08/2017

Munich, Germany

Amazon Deutschland GmbH, Intern Marketplace & Retail

Optimized sales channels and CRM inefficiencies via deep data analysis. Supported European marketplace strategy, embracing Customer Obsession and data-driven decision-making principles from Day 1.

ENGAGEMENT & PROJECTS

12/2025 – 01/2026

Munich, Germany

Online Certificate: Generative AI Leader issued by Google: Developed a solid understanding of the technical fundamentals of Gen AI and LLMs, focusing on their practical application via Google Cloud tools to solve complex business challenges.

12/2020 – 01/2021

Munich, Germany

Online Certificate: Generative AI for Everyone, issued by DeepLearning.AI:

Overview of generative AI fundamentals, large language models, prompt engineering, and practical business use cases.

12/2019 – 03/2019

Munich, Germany

Online Certificate: Machine Learning, issued by the Stanford University:

The course provided a broad introduction to machine learning, datamining, and statistical pattern recognition.

12/2019

Munich, Germany

Online Certificate: Digital Transformation, issued by the Boston

Consulting Group: Examining underlying economics of innovation, technology, and market disruptions. Analyze how digital technologies driving advancement.

10/2019

Schloss Elmau, Germany

Summer Academy Leadership and Personality: In cooperation with the Karl Schlecht Foundation, the program organizes a one-week academy for young people who want to prepare themselves intensively for a future career as a manager.

07/2019

Munich, Germany

THINK.MAKE.START. @BMW: TMS enables Teams from various resorts, in the field of applied innovation, to develop an innovative solution for real-world problems using a Design Thinking approach.

INTERESTS

Professional:

- Vibe Coding
